Core Features

01

QR Asset Tagging

See where your assets and equipment were last scanned and by who without automated location logging in itemit.

02

Check In/Check Out

Fast and easy equipment checkouts using the mobile app, on the go. Simply scan the asset's QR tag, sign and go.

03

Custom Fields

Add any property you need to manage your assets. All properties are pulled in to the Reports page allowing full customisability.

04

Reminders

Let itemit remind you of important dates such as calibration, inspection and PAT testing to minimise downtime.

05

Issue Reporting

Report issues against individual assets. Receive notifications highlighting assets that require attention.

06

GPS Trackers & RFID

Choose the level of tracking automation that's right for you. Upgrade to GPS trackers and RFID for more automated monitoring.

07

Reports & Audits

Run powerful, custom reports on your assets. Quickly audit a site or location to see what's missing and what's there.

08

iOS & Android Apps

Uniquely, the itemit mobile apps (iOS & Android) even work offline! So your team can access asset data wherever they need to.

Case Studies.

Trusted and loved by our customers.

Hear from some of the world's most inspirational organisations already using itemit to track and manage their assets.

4.8 of 5 ★★★★★
4.8 of 5 ★★★★★
4.8 of 5 ★★★★★

Charlotte S.
Smart Water System Engineer, Anglian Water

"itemit is a cost effective solution to what would otherwise be a very expensive problem for us. It provides Anglian Water with the essential ability to track 5000+ pressure monitors and is easy to customise and user friendly."

Abi P.
Ecologist, Binnies UK

"An essential tool for equipment management! itemit is intuitive to use, being able to see the location of where an item was last checked in/ out, and the ability to upload user guides to the items."

Oliver D.
IT Manager, MyTutor

"Great quality, affordable asset tracking tool from a great company. The Itemit team has been really supportive during onboarding. Nice, accessible user interface that's appealing & intuitive to use. Extremely convenient to add & update items."

Ellie C.
Workspace and Events Coordinator, Genie Ventures

"itemit is great! The ease of use is wonderful - scanning items that randomly appear in our office is a very common use! Can't fault the solution."

Caryn B.
Project Analyst, Intertrust Group

"Easy to use product with minimal set up assistance, at a good price. Many other products we reviewed were overly complex and expensive in comparison."

Joanne M.
Asset Administrator, Carlisle Support Services

"A huge benefit is the ease of finding information for audit purposes. Customer Services are helpful. Perfect for uploading service reports, setting reminders and record all information."

FAQs.

Can itemit be used offline?

Yes, you can track assets even without an internet connection and sync later.

Is support included?

Yes, support is provided as standard via email, phone and live chat. Additional support & training packages available on request.

How secure is itemit?

Hosted on AWS, with servers located in Ireland. Data is encrypted at rest and in transit, with GDPR compliance.

How long does it take to get set up?

You can get started within minutes. Most teams are fully up and running within a day. For larger or more complex deployments, we can guide you through a phased rollout.
